

the weekly melon

(not really weekly)

A Good Joke

ask someone to hold out their hand and say "this is your newly bought property". Next ask them where they want their house to be, then pretend to draw it on their hand. repeat this process with different items such as a Tennis court, a soccer field and a garden. Next ask them if they want a pool, when they say yes draw it in the middle of their hand. After this ask "do you want water in it?" When they reply "yes" spit in their hand. I hope you enjoy this funny trick!

What is this color?

I am unable to conclude what this color really is. Is it green or blue? Purple or brown? Perhaps burgundy or aquamarine. You tell me.

Tricky

count the "1"s in this segment

110110001011011110101. Now count the

"1"s in this segment

110110001011011110101

One more time "110110001011011110101"

How many 1s where there?

The answer is $20-5+10+6-4=?$
